

ANDREA COMPASS

VICE PRESIDENT OF LOGISTICS

EDUCATION

Texas A&M University / College Station, TX
Bachelor of Science in Maritime Business Administration

BIO

Andrea's introduction into the oil and gas industry came at a very young age. She was born and raised in Odessa, Texas which has been primarily driven by the oil and gas industry. After graduating from Permian High School, she attended Texas A & M University. While at TAMU, she worked as a research assistant completing several years of research on the globalization of minority and women owned small businesses and publishing a thesis of the findings. After graduating from Texas A & M, she began her career at NOV in Odessa, Texas. She worked in the downhole tools division, dividing her time between their two main offices in West Texas. Andrea eventually relocated to Houston, Texas and continued her career in oil and gas as a Global Logistics Supervisor with Halliburton. In this position, she was responsible for all U.S. outbound shipments to the Asia Pacific region. Andrea gained a wealth of knowledge at Halliburton which helped her to transition into her new executive role as Vice President of Logistics with Next Generation Logistics.

MANAGEMENT AND OPERATIONS

Andrea's role with Next Generation includes being responsible for the developing, documenting, and executing a comprehensive logistics and distribution strategic plan which drives optimal customer service and profitability. She manages and optimizes Next Gen's supply chain and logistics network. She ensures all regulatory and compliance measures are met within guidelines. Andrea establishes and manages relations with warehouses, ocean carriers, freight forwarders, sales force and Next Gen's customers.
